TYPHOON DVB-S USB 2.0 Box

TV VIDEO

Features

- Support DVB-S Protocol (EN 300 744)
- Support DVB-Data Protocol (EN 301 192)
- Universal Serial Bus 1.1 / 2.0 Standard
- Digital Satellite TV and Radio Program Receiving
- Real Time Digital Video Recording (DVR) and Scheduling Recording
- HDTV Support (USB 2.0 Only)
- Time-Shifting
- Electronic Program Guide (EPG)
- Still Frame Capture
- Multi Free Channel Preview
- Satellite / Transponder Auto Scan
- Favorite List
- Full Screen Display
- MPEG-II Software Decoding
- Software Upgradable
- DiSEqC 1.2 / USALS Support
- IR Remote Controller Available

Specifications

- Tuner
- - Input Terminal: F-type 75 Ohm
- - Receiving Frequency: 950 - 2150 MHz Tuning Range
- - Input Level: -75 - -10dBm
- - Carrier Capture Range : ±5MHz
- - Ambient Temperature: 0°C to +70 °C
- - Support MCPC and SCPC
- QPSK & FEC
- - Symbol Rate: 2 - 45Msps
- - QPSK filter: Root-raised cosine filter with roll-off 0.35
- - Punctured codes: 1/2,2/3,3/4,5/6,7/8 and Auto
- LNB & Switch control
- - LNB Supply Voltage: 13V/18V with Short Circuit Protection
- - DiSEqC: 1.2
- - Support Data Burst & Tone Burst
- - Antenna and LNB Control: 22KHz Tone
- - Max. LNB Supply Current: 400mA
- USB Interface
- - Universal Serial Bus 1.1 / 2.0 Standard
- - B Type USB Female Connector
- De-Multiplexing
- - No. Section Filtering: 8 PIDs
- - Engine: Hardware
- - Stream Capture: PES &TS

- A/V Format
- - Video Format: MPEG-II Main Profile & Main Level
- - Audio Format: MPEG-II Audio Layer I & II
- Power Adaptor
- - AC Input: 100 – 240 V ~ 50/60 Hz
- - DC Output: +9V 2.0A
- Options
- - IR Remote Controller

System Requirements

- Desktop or Notebook
- Intel® Pentium® III 600MHz CPU or above for SDTV
- Intel® Pentium® IV 2.0GHz CPU or above for HDTV
- 128M system RAM for SDTV / 256M system RAM for HDTV
- VGA Card with at the least 16MB Memory
- One Free USB 1.1 or 2.0 Port (HDTV Support Only On USB 2.0 Port)
- Microsoft Windows® 2000/XP
- Microsoft Direct X 8.1 or above
- Digital Satellite Dish & LNB
